

Dear Parents:

St. Mary School will be providing students, in Grades 4-8, a Samsung Chromebook for their personal use at school and home, this 2020-21 school year. The Chromebook will come complete with a power cord and a protective case.

There will be a \$45 fee charged yearly per student for device insurance/ offsite-monitoring (GoGuardian). This insurance will cover any damage to the Chromebook that may occur during the year and is **required**. Insurance coverage includes: accidental damage (drops/spills), cracked screens, liquid submersion, theft, flood, natural disasters, power surge by lightning, fire, and vandalism. *The insurance does not cover intentional damage by students or others.* The student will be responsible for the Chromebook, the power cord, and case (with strap) throughout the year.

Content filtering is provided in school on our student network. **GoGuardian** provides an additional layer of on-site and off-site filtering to keep students safer online when they are away from school.

Please make your check payable to St. Mary School. Chromebooks will be handed out by grade level once all fees have been collected.

We are looking forward to an exciting year of learning and growing through the expanded use of technology.

Sincerely,

Mr. Andrew Carner
Principal

Return this portion with your check payable to St. Mary School upon receipt of Chromebook
