

The School Advisory Council continues to work closely with school leadership to support planning efforts. The Council remains focused on providing input while supporting leadership in delivering clear and consistent direction for the school community.

Preschool Program Development

The Council reviewed updates to the PreKindergarten program and recent family engagement efforts. Strong participation and feedback from families highlighted the importance of continuing to clarify:

- Program structure and daily student experience
- Curriculum approach and learning outcomes
- Differences between available program options

The Council encouraged school leadership to continue to refine how these elements are communicated to ensure families have a clear understanding of expectations and opportunities within the program. The focus remains on strengthening early childhood education while supporting long-term kindergarten readiness and overall academic success.

Communication & Family Engagement

The Council discussed the importance of clear, consistent communication with families, particularly as programs evolve. Feedback received from families is being used to improve communication strategies and strengthen overall engagement moving forward.

State of the School Planning

Preparation continues for the upcoming State of the School communication, which is intended to provide families with a clear overview of the school's programs, progress, and future direction.

The primary focus areas include:

- Student Engagement & Program Enhancements
- Academic Programming & Student Outcomes
- Enrollment Trends & Long-Term Sustainability
- Building Enhancements & Repairs
- Safety Updates & Equipment

The goal is to ensure families have a clear understanding of the school's current position and the key priorities guiding future planning.

Student Engagement & Program Enhancements

The Council reviewed ongoing efforts to expand student engagement opportunities, including:

- Continued development of student-led initiatives and programs
- Exploration of additional enrichment opportunities
- Support for activities that enhance both academic and community experience

These efforts are designed to strengthen student involvement and contribute to a well-rounded school environment.
