

## GRADES 7 & 8 HOMEWORK POLICY

Students will be expected to turn in all homework on time throughout the year. To help ensure that this happens, students will now be allowed to use homeroom time to start or complete assignments.

Students will also be **given one homework pass per subject, per quarter. If an assignment is not complete the day that it is due the homework pass must be taken home, signed by the parent, and returned the next day with the completed assignment for full credit.**

Students will only be given one opportunity per subject, per quarter to make up an assignment. Once the homework slip is used for that subject during the quarter, all other assignments that are not turned in will be counted as incomplete and a zero grade will be earned for that assignment.
