

# WELCOME TO KINDERGARTEN

Welcome to the summer before kindergarten!! This is such an exciting time!

Along with fun, vacation and activities, the summer is a great time to help prepare your child for a successful start to kindergarten. Please take the time to read with your child daily and build their language skills by talking, singing, and rhyming throughout the day.

Here are 2 great apps to help young children learn the ABCs and early math skills!

[ABC Duolingo](#)

[Duolingo Math](#)

I have also included Summer Reading links for your family:

[Reading Logs](#)

[Books to Read this Summer](#)

[Summer Reading Programs](#)

[Library Reading Challenge](#)

I do not expect you to complete each of the resources I sent above! I am sending them to help you and your student continue reading over the summer and build their confidence for Kindergarten.

We will begin the year with 3 phase-in days to help students feel less overwhelmed! At that time, we will also complete beginning of the year assessments of their math and reading skills.

Please email me if you have any questions! I am SO EXCITED to be your students' kindergarten teacher. Have a Wonderful summer!
